PROFILE SUMMARY

Software Engineer with hands-on experience across Quality Assurance and Frontend Development. Skilled in manual and automation testing (Selenium, Rest Assured), defect tracking with Jira, and building clean, responsive user interfaces with HTML, CSS, JavaScript, and React. Experienced in collaborating with cross-functional teams to test, debug, and ship reliable, high-quality web products, with growing exposure to AI-assisted development tools.

SKILLS

QA & Testing: SDLC, STLC, Manual Testing, Smoke Testing, Sanity Testing, Regression Testing, Performance Testing, Selenium, Rest Assured, Agile, Jira

Frontend Development: HTML5, CSS3, JavaScript (ES6), TypeScript, React.js, WordPress, Responsive Web Design, REST API Integration, UI/UX

Backend & Database: Python, Django, MySQL, Firebase, Supabase

Tools & Platforms: Git, GitHub, Antigravity, VS Code, Cursor, Vercel, Netlify, Render, MS Excel, MS Word, MS PowerPoint, Google Sheets, Google Forms

AI Tools: ChatGPT, Claude, Gemini, Google Stitch, Loveable

WORK EXPERIENCE

Software Engineer — ASP OL Media Pvt. Ltd.

May 2025 – Jan 2026 | Pune, Maharashtra

- Wrote detailed test plans, test cases, and test scenarios to ensure thorough coverage of website functionality.
- Performed Smoke, Sanity, Regression, and Performance testing to validate features and catch issues after updates.
- Identified and logged software bugs in Jira with clear, reproducible reports; collaborated with developers to track fixes through resolution.
- Built basic automation scripts using Selenium for UI testing and Rest Assured for API testing.
- Created bug reports and quality summaries to keep stakeholders informed on release readiness.

Intern — Internshala Edutech Pvt. Ltd.

Aug 2024 – Oct 2024 | Jaipur, Rajasthan

- Built two live projects — a Voice Assistant Model and an E-commerce website — using Python and the Django framework.
- Applied Python libraries and SQL queries to implement core application features and data handling.

Intern / Industrial Trainee — Bharat Intern Pvt. Ltd.

Aug 2024 – Sep 2024 | Jaipur, Rajasthan

- Learned Machine Learning fundamentals using Python, including key ML libraries and SQL for data queries.
- Built a Movie Recommendation System using content-based filtering, similar to recommendation engines used by OTT platforms.
- Built a House Price Prediction Model to estimate property prices based on locality, furnishing, and amenities.

PROJECTS

Personal Portfolio Website & Admin Dashboard (HTML, CSS, JavaScript, Supabase, Netlify)

- Built a responsive portfolio with a custom admin panel and Supabase backend; deployed on Netlify.

CineMatch – Movie Recommender Web App (React, TypeScript, Python, TMDB API)

- Built a React/TypeScript app with a Python ML recommendation engine and live TMDB data.

Interactive Cafe Website & Digital Menu (HTML, CSS, JavaScript, Google Stitch)

- Built a responsive restaurant site with interactive navigation, menu, and booking details.

Automation Exercise – E-commerce Website Testing (Manual Testing)

- Tested login, signup, search, cart, and checkout flows; identified and reported functional defects.

ParaBank – Online Banking Application Testing *(Manual Testing)*

- Tested registration, login, fund transfer, and bill payment; verified functionality and usability.

Sauce Labs – Cross-Browser Website Testing *(Manual Testing)*

- Verified pages, navigation, and forms across browsers and devices; logged usability issues.

Spice Demo Store – E-commerce Website Testing *(Manual & Automation Testing)*

- Tested the full Shopify demo store end-to-end using manual and automation testing techniques.
- Wrote detailed test cases and test scenarios covering key site functionality.
- Logged and tracked bugs in Google Sheets for team visibility.

EDUCATION

Bachelor of Technology, Computer Science

Gurukul Institute of Engineering & Technology

CGPA: 8.5

Aug 2022 – May 2025 | Kota, Rajasthan

Diploma, Computer Science

Government Polytechnic College

Percentage: 62%

Sep 2020 – Apr 2022 | Jhalawar, Rajasthan

CERTIFICATIONS

- HTML, CSS, JavaScript, Bootstrap – Full Stack Course (Udemy)
- Programming in Python with AI

ACHIEVEMENTS

- Core Team Member, College Technical Club
- Coordinator, "Showcase Your Technical Skills" Challenge Event
- Volunteer, Technical Master Club

SOFT SKILLS

Time Management, Attention to Detail, Multi-Tasking, Problem Solving, Quick Learner, Communication
